200watt foldable solar charger

1*User's Manual

Technical Specifications

Solar panel power	200watt mono-crystalline
USB-A Output	QC3.0 24W Max(5V/9V/12V)
Type-C Output	PD45W Max(5V/9V/12V/15V)
DC Output	18V 11.1A max
Unfold size	2440*540*25mm
Folding size	540*580*60mm
Weight	7.2 kg

How to charge your phone/ USB device:

1. Unfold the charger and place the panels under direct sunlight.
2. Connect your device to the solar charger with a USB cable.
3. Keep your device cool while charging. Place it under the solar panel, in the pocket of the solar panel, or in the shade to avoid overheating.

FAQ & Solutions

1. If my device needs an input current of 1A, will the 2A output of the solar charger damage it?

No. The solar panel has intelligent charging, detecting the needs of your device and delivering exactly what it needs. If your phone accepts 1A, the charger will deliver 1A .

2.What if the foldable USB port solar charger is not charging my devices?

- A. Check the manual of your device to ensure the input voltage is 5V.
- B. Cloudy weather and indirect sunlight may cause fluctuations in the current. This in turn may hinder or prevent charging. Place the solar charger in direct sunlight or wait for the weather to clear.
- C. Wipe the panels clean with a damp cloth between usage to prevent scratching.
- D. Avoid exposure to fire, water and chemical liquid.

3. If it is partially cloudy or shady will the solar charger still work?

Yes, although the charging efficiency will be low causing prolonged charging time.

4. Will this panel charge a power bank?

Yes. Be sure to put the power bank in the pocket of the charger to avoid direct sunlight or excessive heat.

Caution

1. Do not break, dismantle, or drop this product.
2. Dispose the charger according to local environment laws.
3. This charger is not waterproof. Avoid exposure to water, rain, and moist environments.
