

Gasoline Generator model GN-B15000

Professional emergency power source for off-grid and hybrid installations.

15kW

970 × 640 × 780

Designed for continuous and emergency operation.

- ✓ **THREE-PHASE VERSION**
- ✓ **COPPER WINDING**
- ✓ **QUIET OPERATION**
- ✓ **EASY STARTING IN LOW TEMPERATURES**

Generator set equipment:

- Short-circuit protection switch
- Fuel level indicator
- AC output socket
- Removable air filter
- Oil level warning system
- Four-stroke gasoline engine

TECHNICAL SPECIFICATION

MODEL: GN-B15000

Model	GN-B15000
Fuel type	95 Gasoline
Rated power (kW)	15 kW
Maximum power (kW)	16 kW
Rated AC voltage	230V / 400V
Frequency (Hz)	50 Hz
Phases	Three-phase
Engine model	2V80F
Engine type	2-cylinder, 4-stroke, air-cooled
Displacement (cm ³)	997
Engine speed (rpm)	3000
Noise level (dB)	70–75
Continuous operating time	14 h
Fuel consumption (g/kWh)	295
Starting system	Electric
Fuel tank capacity (L)	25
Weight (kg)	115
Dimensions (L × W × H) (mm)	970 × 640 × 780

EMERGENCY POWER SUPPLY

OFF-GRID OPERATION

COMPATIBILITY
WITH HYBRID INVERTER
